He said the Airport is determined to have the pattern over the river and harm all the wildlife. He wants me to enforce the altitude restrictions. He said the traffic this summer has been too much. They don't have to go so low and fast, which is why he can't get the numbers. He said I need to step it up with the pilots. 8/20/2010	11:44	Teresa Foster			Dear Mr. Barth & Smith, This morning as I was leaving my subdivision, I noticed that a Twin Otter plane was flying very low over the homes located at the southwest corner of Airport and Nelson Roads. I would estimate it was 50 feet above us. I'm concerned about our safety - this plane was just too close. It appeared that this plane was "buzzing" our homes. The pilots are not honoring the voluntary "noise abatement policy" set forth in airport policy. Thank you, Teresa Foster	
8/20/2010	12:00	Tom Zweck		Baby blue bi plane	Called to complain about a baby blue bi-plane that has made 12 passes over the farm and is a creep, a total creep. This guy is nothing but a bad neighbor. It's sickening.	
8/21/2010	8:10	Teresa Foster		Airport & Nelson	Dear Mr. Barth and Smith, The Twin Otter flew directly over my home at 8:08 am this morning – and was very loud. It flew about 50 feet above my house. What are the safety regulations for a plane that size flying so low over a neighborhood? There is absolutely no peace and quiet in my world anymore - the place that I call home. I've copied our Mayor and City Council members. Perhaps we should invite City representatives to witness the degrading of our lifestyles here - being awakened in the middle of the night and early morning buzzing of our homes. Please stop the madness. Why did the City allow this part of town to be developed? Thank you for listening. Teresa Foster

So much for a nice quiet weekend. Who cares about the neighbors? I downloaded the City Council Communication about Mile-Hi's "night operations." Mile-Hi was told to advise neighbors when they are going to conduct their night operations. But then, the City only gets 45 minutes notice. How are they going to notify the neighbors that they will be disturbing us for an entire evening? Teresa Foster

					Wasn't there a voluntary noise abatement policy on the books for take off and landing? Well, it hasn't been followed today or any day for that matter. I'm amazed how Mile-Hi continues to avoid any compliance with voluntary noise abatement to this date. Yes, I received an email from Mr. Barth notifying me of Mile-Hi's intent to try to earn a Skydiving record today. Oh, the joys of living near the airport. At least the "Truck Pull" last night at the Fairgrounds had to end before it got too late last night. One hopes for poor flying conditions the remainder of the year and into the future.
